## Situation Report (SitRep)

2020 Novel CoV/Wildfires/Elections | November 5, 2020

Incident Information		
Incident Numbers: 20-0265 2020 Novel CoV, 2020 Wildfires, 20-3586 2020 Elections	SitRep Version: Update	SitRep #181
Incident Type: Pandemic/Wildfire	SitRep Period: 11/4/20 1600 to 11/5/20 1600	
SEOC Activation Level: Level 1 – Full	Disaster Manager: Robin Lang	
Activated Emergency Centers: See pages 3 and 6	Activated Emergency Support Functions (ESF): 2, 5, 6, 8, 10, 11, 13, 14, 15, and 20	
SEOC Supervisor: Chris Utzinger	Date/Time SEOC Supervisor Approved: 11/5/20 1600	
General Situation		
<p>The Washington State Emergency Operations Center (SEOC) continues to respond to the global outbreak of COVID-19.</p> <p>Fully activated since January 22, 2020, the SEOC has been coordinating the acquisition and delivery of personal protective equipment (PPE), the use of non-pharmaceutical interventions (NPIs), intelligence and advanced planning, and logistical support to stakeholders.</p> <p>The SEOC continues 24-hr operations with two 12-hr shifts through Saturday morning in case of civil unrest in connection with the 2020 elections. ESFs 2, 5, 13, 15, and 20 are included in this response.</p> <p>This situation report includes SEOC and state agency activities related to the continued COVID-19 response, the Governor’s Safe Start reopening plan, wildfire recovery, and potential civil unrest.</p>		
Today’s News		
<ul style="list-style-type: none"><li>Today, the Washington State Department of Health (DOH) released a new report by the Institute for Disease Modeling (IDM) that quantifies how various diagnostic screening scenarios could help mitigate the risk of COVID-19 transmission associated with reopening schools. The report, the third in a series by IDM, affirms that while there are still risks associated with returning to full in-person instruction, the risks could be significantly reduced through school-based countermeasures, hybrid scheduling, and a phased-in approach that brings back K-5 grades first. Read full DOH press release here.</li><li>The United States reported its highest number of new coronavirus infections in a single day -- 102,831 on Wednesday, according to data from Johns Hopkins University. And it's not just due to more testing. New cases have increased 21% over the past week, according to Johns Hopkins. But testing has only increased 4.52% over the past week, according to the Covid Tracking Project. Read more (CNN)</li></ul>		
Current Risks (Intelligence Section)		
<ul style="list-style-type: none"><li>Misinformation about the positive impacts of mask wearing, and misinformation about negative health effects of mask wearing could be exacerbated further with the scientific debate on infectious transmission of COVID 19.</li><li>A possible seasonal influenza epidemic in the fall may lead to additional challenges including disruption of the health and social care systems and a large resurgence of Influenza-like Illness (ILI)</li></ul>		

# STATE EMERGENCY OPERATIONS CENTER

and Covid-like Illness (CLI) with local or regional epidemics. A generalized increase in respiratory infections over the winter could also rapidly overwhelm test and trace capacity.

- Following the suspension of routine clinical care and general fear from the public around healthcare systems during the pandemic, there will likely be an increase in the number of poorly-managed chronic conditions or undiagnosed diseases combined with a surge in post-COVID-19 morbidity resulting in overall and long term health consequences. This risk is being confirmed in several states that are reporting patients in hospital longer and with more serious illness due to poorly managed chronic health conditions. (The Gazette, 9/23/20).

## SEOC Objectives

### Strategic Objectives in Priority Order

- 26a. Maintain preparedness and support efforts for election day.
  - 1. Ensure the safety of our healthcare and other critical infrastructure workforce.
- 2b. Continue to implement and maintain a public health and healthcare system response that slows the infection rate of COVID-19 and prevents the healthcare system from becoming overwhelmed with special considerations for the most vulnerable populations (over 65, living in congregate settings, underlying chronic health conditions, pregnant, experiencing homelessness, etc.).
- 11a. Support the implementation of the Safe Start phased approach to re-opening Washington State.
- 25b. Support wildfire recovery efforts.
  - 3b. Respond to the community and critical infrastructure lifeline impacts (e.g., food, health, communications, etc.).
- 13b. Address Human Service needs, including, childcare, mental health, and hunger relief with an emphasis on protecting vulnerable populations and displaced persons.
  - 4. Ensure the development, maintenance, and use of data collection and analysis systems across the response that inform decision making processes and allow for evaluation of intervention efforts.
  - 5. Plan for economic, physical and behavioral health, social and healthcare system recovery.

### Operational Objectives

- 22f. Support communities impacted by wildfires, including addressing gaps in mass care, transitional housing, communication capability, recovery planning, and debris removal. (SO #1, 3a, 5, 13a, and 25b)
- 6b. Provide personnel, planning capability, equipment and supplies in support of contract tracking, testing, isolation and quarantine efforts; and address medical support needs. (SO #2b)
- 21. Develop and maintain state operation staging areas to meet the PPE needs of the incident. (SO #2b)
- 8a. Mitigate impacts to food supply, supply chain, and health and safety of agricultural and food processing workers. (SO #3b, 4, 13a, and 24a)
- 10e. Continue developing processes to collect, analyze, and visualize key data elements to support decision making and situational awareness. (SO #4)

# STATE EMERGENCY OPERATIONS CENTER

## State Resources

WA State Agency COVID-19 Cost Estimates (as of 11/2/20)	Cost
State Agencies (expenditures year-to-date)	\$ 1,480,434,096
PPE ordered, not yet received	\$ 39,753,833
<b>Total Estimated Expenditures Reported</b>	<b>\$ 1,520,187,929</b>

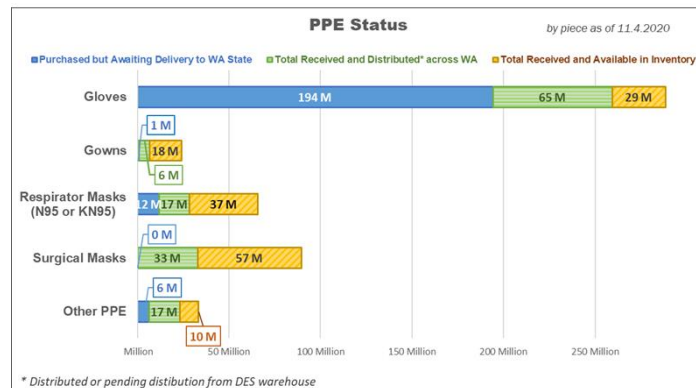

## Status of Resource Requests (as of 11/5/20)

The cumulative status of resource requests in Resource Tracker (WebEOC) are as follows:

Incident	Total # of Requests	Unassigned	Assigned	Accepted	In Transit	On Scene	Completed
2020 Wildfires	55	0	5	4	0	2	33
COVID-19	6,442 (+86)	0	73	70	1	121	5,342

Please note, there are several requests whose status not currently summarized in the WebEOC dashboard, which is the source for the above roll-up. They are included in the total count, but not the status breakdown.

## Personal Protective Equipment (PPE) Status and Distribution (as of 11/4/20)

## Employment Security Division (ESD) Benefits Data Report for 10/31/20

**\$12.1 Billion**

Total paid

For payments made since  
March 8, 2020 – October 31, 2020

**\$ 3,909,806,289**

State unemployment insurance

**\$ 5,822,537,732**

Federal Pandemic Unemployment Compensation

**\$ 1,172,117,801**

Pandemic Unemployment Assistance

**\$668,960,372**

Lost Wages Assistance

**\$ 410,134,390**

Pandemic Emergency Unemployment Compensation

**\$ 76,537,929**

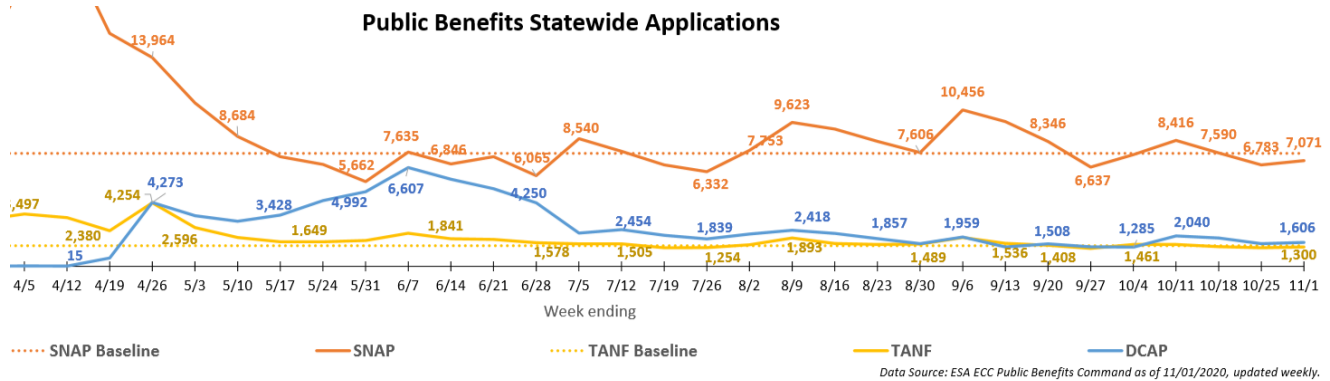

Extended Benefits

FPUC, PUA, PEUC, and EB are federal unemployment programs made available through the federal CARES Act. LWA was federally funded through a temporary emergency measure.

\$12.1 Billion paid (March 8, 2020–October 31, 2020): \$3,909,806,289 UI | \$5,822,537,732 FPUC | \$1,172,117,801 PUA | \$668,960,372 LWA | \$410,134,390 PEUC | \$76,537,929 EB

RESPONSE/RECOVERY ACTIVITIES					
Operations Section					
**ESF 2 Communication, Information and Warning Systems**  - Continued to support state, tribal and local resource requests.					
**ESF 6 Mass Care, Emergency Assistance, Temporary Housing and Human Services**  - Hosted ESF 6 Coordination call. - Monitored Resource Requests.					
**ESF 8 Public Health, Medical and Mortuary Services (Operating remotely)**  - Continued to monitor Resource Tracker closely and ensure missions are being completed. - Continued to work with Chelan/Douglas Health District to restore sustainable operations. - Volunteer Management is working on filling multiple requests for medical personnel across the state. - Volunteer Management worked with Grant County on their nursing shortage and has found viable volunteers. - Med/Surge is working on sending hospital beds and ventilators to Whitman County.					
**ESF 10 Hazardous Materials (Operating remotely)**  - Ecology hazmat teams and asbestos contractors continued assessment work in Whitman and Douglas Counties.					
**ESF 11 Agriculture and Natural Resources (Operating remotely)**  - Continued to track of state efforts of SARS-CoV-2 testing of animals in Washington State. - Coordination with SEOC Tribal Liaison remains ongoing to address several outstanding resource requests for the Colville Tribes related to wildfire impacted agriculture/animals. A resource request for 100 tons of hay was submitted on 10/28. WSDA continues outreach to non-profit and federal partners to identify viable options to assist in meeting this request. Outreach remains on-going on available funding options from non-profit partners, including APSA, for grants to assist with procuring the needed animal feed. - Coordination is ongoing between the Governor's Food Security Coordination Team, EMD, AmeriCorps, ESD, workforce development partners, WA Dept. of Commerce, and WSDA continue around advanced					

# STATE EMERGENCY OPERATIONS CENTER

planning for hunger relief network staffing after 12/17/2020. A meeting was hosted today and included representation from the National Guard.

- WSDA continues participation in recurring meetings led by Dept. of Commerce to discuss the proposal process/timeline to potentially utilize Community Development Block Grant-Coronavirus funding as a source of hunger relief network staffing support. The next meeting is scheduled for the week of 11/9/20.
- WSDA Animal Services continues outreach to statewide NGO partners to determine if a dry/wet pet food resource request for Mason County can be met. Confirmed contributions are pending as of 10/26/2020 and efforts remain on-going.
- WSDA participated in the CDC One Health State-Federal COVID-19 Weekly Update Call with federal and state partners to discuss One Health issues pertaining to COVID-19, including animal testing, diagnostics, research and other issues at the human-animal-environment interface within the United States.

## ESF 14 Long-Term Community Recovery

- Participated in the ESF 6 coordination call, local jurisdiction call, Governor's food security call, and Washington Recovery Group call with Office of Financial Management.
- Worked with Small Business Administration and the Pine Creek Community Restoration Long-Term Recovery Group to gather household insurance numbers for Whitman County.
- Coordinated the exchange of information between the Pine Creek Community Restoration Group and Commerce on housing assistance being provided to Whitman County following the Labor Day fires.
- Monitoring social media for unmet recovery needs from September fires.
- Continued to coordinate state COVID-19 recovery planning activities.

## ESF 15 External Affairs – Joint Information Center

- Continues to monitor media/social media; sharing key messages from partners and local jurisdictions.
- Media inquiries for election, National Guard, or other Military Department topics can be routed to Karina Shagren at 253-442-4765.
- Contacts for the JIC (M-F 7 AM to 5 PM ) are 253-512-7491 and [JICdirector@mil.wa.gov](mailto:JICdirector@mil.wa.gov). Afterhours call 253-442-4765.
- Media inquiries for COVID-19 can be routed to [DOH-PIO@doh.wa.gov](mailto:DOH-PIO@doh.wa.gov).

## ESF 20 Defense Support to Civil Authorities

- Continued to support state and local missions.
